Development important Questions

1. “What may be development for one may not be development for the other.” Explain with a suitable example.
2. Write a paragraph on your notion of what should India do or achieve to become a developed country.
3. Why do you think average income is an important criterion for development? Explain.
4. Define: (A) Infant mortality rate (B) Literacy rate (C) Net attendance ratio (D) BMI
5. Describe any three possible development goals of landless rural labourers.
6. Define the Public Distribution System.
7. Does the availability of good health and educational facilities depend only on the amount of money spent by the government on these facilities? What other factors could be relevant?
8. Kerala, with lower per capita income, has a better human development ranking than Haryana. Hence, per capita income is not a useful criterion at all and should not be used to compare states. Do you agree? Discuss.
9. “Though the level of income is important, it is an inadequate measure of the level of development.” Justify the statement.
10. Explain any five fields other than income where development is needed.
11. Explain with examples that there are other important development goals also besides income.

OR

Give some examples where factors other than income are important aspects of our lives.

12. What does HDI stand for? Explain the main criteria of measuring HDI according to UNDP Report of 1990.
13. On what basis the rich and low income countries have been categorized in the world? What are the limitations of this approach? According to the World Development Report, 2006, India comes in which category? Give reason for the same.
14. “Money cannot buy all the goods and services that one needs to live well” Do you agree with this statement? Justify your answer with any three suitable arguments.
15. ‘Conflicting goals can also be developmental goals’. Elaborate with examples.
16. Why do we use averages? Are there any limitations to their use? Illustrate with your own examples related to development.
